

BUY & SELL NEWSPAPER: DROP PATTERDALE ADS!

Buy & Sell newspaper has been asked to stop listing ads for Patterdale terriers. The call follows a Sunday Times report (February 2009) which revealed that some badger baiters are using the publication to advertise dogs used in the illegal activity.

The report stated that the sale of the dogs "is organised over the internet, by word of mouth, and in Buy & Sell, a weekly newspaper that carries classified ads. In some cases, advertisements which offer Patterdale dogs described as 'working strain', are dogs that are being used for badger baiting."

In a letter to the company, the Irish Council Against Blood Sports stated: "By including such ads, Buy & Sell is, in some cases, unwittingly facilitating some of the country's worst cruelty."

Please respond to our action alert below. For more information and updates, check out www.banbloodsports.com Thank you.
